WASTE COMPACTING MACHINE

SUPERLIZZY 550PET

COMPACTING MACHINE FOR PET BOTTLES AND CANS

Screw system with continuous compaction

Automatic separation of liquids from solid waste

- Compacted solid waste collected in a bag
- Liquids collected into a tank or discharged directly into sewers
- Bag and tank placed on a special trolley

CUSTOMISATION

The **compact** and **efficient** design of SuperLizzy easily allows it to be located outdoors or indoors such as restaurant lounges or working places.

SUPERLIZZY can be **built into existing** restaurant **furnishings** or can be an important communication means or distinctive furniture element thanks to the livery and the **easy customisation**.

SUPERLIZZY

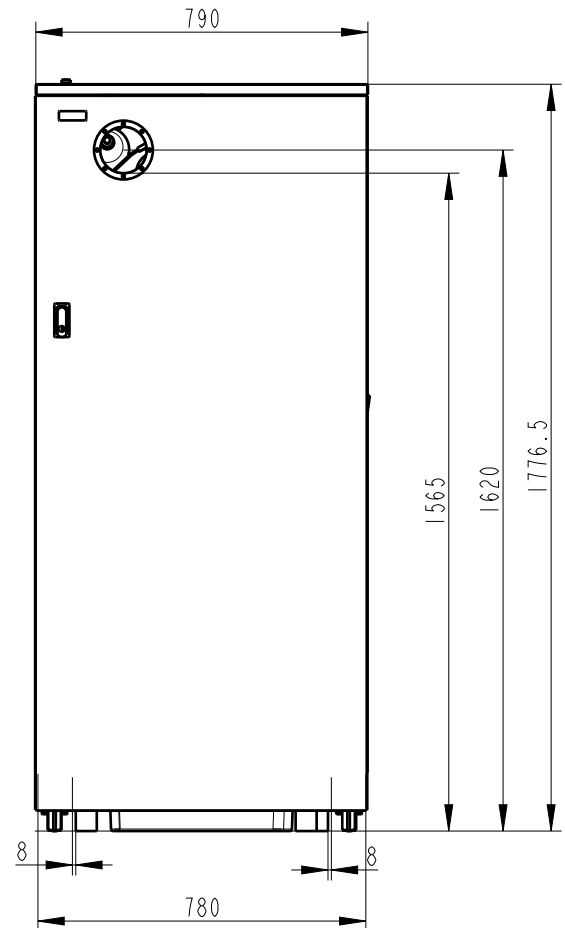

Making space for nature!
